CONFIRM PRINTED PAPER SIZE

1. Prior to printing, make sure that 'scaling' is off on your print dialog box.

2. Measure the bar on the left once printed to ensure it's exactly 2 inches long.

If the measurement is accurate, proceed to the next step, otherwise check your print settings again, and make sure you are printing at full size.

METHOD 1 MEASURE YOUR FINGER WITH OUR PAPER SIZER

1. Carefully cut out the sizer on the right, including the small slot on the left side of the sizer.

2. Roll the sizer into a circle with the numbers facing out, and insert the pointed tip of the sizer into the slot on the other end.

3. Place the sizer around your finger and pull the tab through the slot until the paper is snug around your finger. The sizer must fit snugly for an accurate reading.

4. Read your finger size on the ring sizer.

METHOD 2 MEASURE A CURRENT RING

1. Choose a ring you already own that fits best on the intended finger.

2. Place the ring over the circles, matching the inside edge of the ring to the circle nearest in size.

3. If your ring falls between two different sizes, order the larger size.
